"Sometimes in life, you find a special friend. Someone who changes your life just by being a part of it. Someone who makes you laugh until you can't stop. Someone who makes you believe that there really is good in the world. Someone who convinces you that there really is an unlocked door just waiting for you to open it. This is forever friendship. When you're down and the world seems dark and empty, your forever friend lifts you up in spirit and makes that dark and empty world suddenly seem bright and full. Your forever friend gets you through the hard times, the sad times and the confused times. If you turn and walk away, your forever friend follows. If you lose your way, your forever friend guides you and cheers you on. Your forever friend holds your hand and tells you that everything is going to be okay. And if you find such a friend, you feel happy and complete because you need not worry. You have a forever friend, and forever has no end."

"Why do we have friends? Friends are special people that care for you, they feel for you. You tell friends about your life, and they tell you about theirs.

Why do we have friends? They are there for you when you make a bad decision or maybe even a good one. You tell each other secrets. Hopefully they won't tell, but some things are meant to be told.

Why do we have friends? Not to disclude or ignore. But to be there whenever they need you. Even if they leave they will always be your friends.

Why do we have friends? We have friends for the best memories a person could have. We have friends to live, to fight, to cry, to face reality.

We all have friends. Maybe we haven't found them yet or maybe you have. Who are your true friends?"
